YAMAMAY PRESENTS THE SPRING VERSION OF SUPER CUPS: THE FEMALE UNDERWEAR LINE DESIGNED TO EMBRACE, SUPPORT AND ENHANCE EVEN THE MOST GENEROUS SHAPES

April 2026. Yamamay, always at the forefront of the world of lingerie fashion, after the great success of the collection presented last autumn, presents the spring version of 'Super Cups': the new line of bras and bodysuits designed to embrace, support and enhance even the fuller figures without sacrificing elegance and femininity. Designed to fit all sizes, the models in the line have been created to enhance the décolleté and body without restrictions thanks to a structure that supports without compressing, highlighting feminine beauty with grace and naturalness.
Developed with differentiated cups and designed to offer maximum comfort without sacrificing sensuality, the models in the line are intended to fit sizes ranging from 3B to 5F and have all been reinforced in strategic points to ensure an impeccable fit even for larger sizes. The underwear thus becomes an enveloping support that ensures all-day comfort, allowing you to move freely and without discomfort.

The collection offers two different lines "Rose" and "Selene":

- **Rose** is a tribute to the lushness of spring blooms. It is made of lace with a floral design and tulle, both produced with recycled fibers. The balconette, with differentiated cups, is available up to size 5F. To ensure greater support and comfort, a padded and shaped strap has been added, designed to fit perfectly to the shape of the shoulder. The back closure hook uses ultra-flat bonding technology, which ensures a discreet fit even under clothing. Matching items: Brazilian briefs and high-waist briefs.

- **Selene** is made of printed lace with a floral design and tulle, both in recycled fibers. All the pieces in the series are enhanced with a refined ajour detail, giving an additional touch of femininity and lightness. The collection includes balconette bras, bralettes and bodysuits, all with differentiated cups up to 5F to ensure a more precise fit. The underwired balconette bra is unlined and features shaped, padded straps designed to perfectly fit the shoulder shape to provide better support.
The bralette and the bodysuit, also with underwire, are padded and equipped with a light cup with functional holes, designed to enhance ventilation; they also feature a covering insert to protect the nipple.
Coordinated with the bras, the following are available: high-waisted briefs up to size 6 and Brazilian style up to size 5.

The items are already available on www.yamamay.com and in all Yamamay stores.
